

The Rest of the Pattern: The Growing Church

Preached 9/2011 at Hillcrest church of Christ, Utica, OH

- I. Introduction
 - a. When we talk about the church, we often mention identifying characteristics that set it apart from other religious organizations
 - i. Its worship
 - ii. Its organization
 - iii. Its name
 - iv. It's manner of collecting and using money in evangelism and benevolence
 - b. We rightly argue that the New Testament lays out a pattern for how the church that Jesus Christ built is intended to act and work in this world
 - c. We say that if we are looking for the true church today, we should look for a religious body that is like the first century church in every significant way.
 - d. We even say to people in the religious world, that if the church where you worship does not have these characteristics, it is not the church of the New Testament, and therefore not the church that Jesus died to save.
 - e. What is sometimes overlooked, however, is that there is much more revealed about the church of the first century than
 - i. Its worship
 - ii. Its organization
 - iii. Its name
 - iv. Its manner of collecting and using money
 - f. I'd like to begin a series of lessons this morning called, "The Rest of the Pattern", which will look at some of these characteristics of the early church that are sometimes overlooked, but which we, as Christians seeking to follow the pattern of the New Testament, must not overlook, if we want to follow in the footsteps of the first century Christians in following Christ
 - g. I want to challenge each of you, as we study these lessons, to consider the following questions:
 - i. Does the church where I worship have this characteristic that the first century church had?
 - ii. Is this characteristic part of the pattern for the church of Jesus?
 - iii. What can I do personally, as a Christian, to make this characteristic more evident in the church of which I am a member?
 - h. The characteristic of the early church that I'd like to focus on in this study is growth
 - i. I want to challenge each of you
- II. Key Sentence: The early church was a growing church: in numbers, in influence and in maturity
- III. The early church grew in numbers
 - a. Scriptures indicating the numerical growth of the church

- i. Acts 2:41
 - ii. Acts 4:4
 - iii. Acts 5:14
 - b. Significance of Numerical Growth
 - i. Some have erred in thinking that unless a congregation is multiplying as the Jerusalem church did in its early days, then the church is not following the pattern of the New Testament
 - 1. E.g. the crossroads movement and the Boston church
 - 2. So called multiplying ministries
 - 3. They pursue numerical growth in an unbalanced and unscriptural way
 - ii. Numerical growth is impossible to sustain if there are not other types of growth occurring as well.
 - iii. Numerical growth is the aspect of growth that is the least in our control.
 - 1. 1 Cor. 3:6 – God gives the increase
 - c. Application:
 - i. Is the Blue Ridge church of Christ growing in numbers?
 - ii. Yes –
 - 1. A few Christians meeting in homes
 - 2. Renting space in a strip mall
 - 3. Moving into a building owned by the church
 - 4. Even in the few months we have been here, we have seen numerical growth
 - iii. Numerical growth at the level of the local congregation is good, but it is more important that the church as a whole is growing.
 - 1. Example, many converted, but more move away
 - 2. Example, many converted, and a substantial portion leave to begin a new work
 - 3. In these cases, the local church may actually be smaller, but the growth of the kingdom of Christ is obvious
 - 4. Acts 8:1

IV. The early church grew in influence

 - i. Acts 2:47-48

c. Application:

- i. Is the Blue Ridge church of Christ growing in influence in the communities of which it is a part?
 1. That is a difficult question to answer
 2. We might say not in any overt, obvious way
 3. The questions are easier to answer when we ask them of ourselves as individual members of this congregation
- ii. Is my influence for Christ growing in the community where I live? Over the past year...
 1. How many people of my acquaintance know that I am a Christian?
 2. How many people know that I care about them?

 - d. What does that tell you about God's expectation for the church of Jesus Christ at Blue Ridge?
 - 3. But to return to the original question. It is not, is there spiritual maturity at Blue Ridge, but rather, is our congregation growing in spiritual maturity?
 - a. Think of one of the mature members of the congregation, and one of our newest members, and ask the question, could this new Christian develop to the level of maturity of that mature Christian here at Blue Ridge?
